Mentorloop

Better mentoring & less admin.
ORGANISATIONS IMPLEMENTING SUCCESSFUL PEOPLE PROGRAMS ARE WINNING

Diverse teams outperform non-diverse ones by 35%

Companies with engaged employees outperform the rest by 202%

Engaged employees are 87% less likely to leave their organisation
MENTORING IS ONE OF THESE PROVEN PEOPLE PROGRAMS

**RECRUITMENT**
More than 60% of college and graduate students listed mentoring as a criterion for selecting an employer after graduation.

**RETENTION**
Retention rates climb as much as 69% for mentors and 72% for mentees engaged in a mentoring program.

**LEADERSHIP DEVELOPMENT**
Managerial productivity increased by 88% when mentoring was involved, versus only 24% with training alone.

**ENGAGEMENT**
75% of millennials deem mentoring critical to their success.

**PERFORMANCE**
71% of Fortune 500 companies have formalised mentoring programs.
But the **old way** of mentoring isn’t good enough

**Inefficient**
Lots of admin work make starting or running a mentoring program - especially at scale - painstakingly difficult.

**Inconsistent**
Inconsistent inputs and a lackluster program framework result in inconsistent and unmeasurable outcomes.

**Unengaging**
Participants are matched and then left out to dry, and employee and management buyin is non-existent.

**Ineffective**
All of these things result in a program which doesn’t scale and doesn’t positively impact the company or the individuals involved.
MENTORLOOP MAKES IT BETTER - AND EASIER

Mentorloop is a cloud-based mentoring platform which enables you to build a transformational mentoring program easily - empowering your employees to develop, and enabling your organisation to improve.
Forget the google forms, emails and spreadsheets; onboarding employees with Mentorloop is as simple as sending out one recruitment form - customised for your employees.
MATCH THEM INTO SUITABLE MENTORSHIPS

Don’t mess around matching employees with spreadsheets and whiteboards. Make it easy and more effective with quick filtering and detailed matching criteria.
OR LET THEM MATCH THEMSELVES

Remove the matching process entirely and increase employee engagement by enabling employees to browse, select and connect into their own suitable mentorships.
Provide participants with an easy-to-use online portal for their mentoring relationship, where they can chat, set goals, upload tasks and events, and keep track of their progress.
Mentorloop guides your program participants through a goal setting wizard, providing the framework required to ensure the goal is SMART and the ability to share it with their accountability partner - their mentor.

AND SET THEIR GOALS

Getting things done by setting goals has been the conventional wisdom in management circles since the 1950s and continues to be an effective framework to choose from.

Often, traditional goal setting fails short due to lack of feedback and review. To counter this, Mentorloop built a way for you to track and share goals alongside your mentor.

Don’t worry if your goal is half-baked. What’s important is making the first step.
Ensure learning and development is maximised with supporting content, including goal-setting resources, checklists, and other helpful tools.
Access real-time analytics and data from your dashboard, and receive detailed program reports and employee survey results to measure the success of the program.
